## FARMERS ARE SPECIALLY INVITED LETHBRIDGE, JULY 15

Many will be interested to know  
that plans are all but completed for  
the field day and basket picnic that  
is to be held on Saturday, July 15th,  
at the Dominion Experimental Station,  
Lethbridge.

A special invitation to all farmers  
in the area served by this station to  
attend this field day. Visitors are  
always welcome here but on July 15th  
special opportunity will be afforded to  
all interested to inspect the experi-  
mental work being conducted and to  
gain first hand information concern-  
ing the many experiments being con-  
ducted which have a bearing on the  
problems of the dry land as well as  
the irrigation farmer in this end of  
the province.

The program is to start at 10 a.m.,  
with organized tours of the plot work

including cereals, forage crops, ferti-  
lizer and sugar beets. The speakers  
will be heard immediately after lunch.

Come early if you possibly can and  
don't forget to bring a basket of  
lunch. In addition to coffee, milk  
will be provided for the children. For  
lunch on the lawn at noon and again  
in the evening.

A feature of the day will be the  
visit of the Honorable Robert Weir,  
Minister of Agriculture for the Do-  
minion, and the new Deputy Minister  
of Agriculture, Dr. H. Barton. Come  
to meet and hear these men. They  
and other prominent men will speak  
during the afternoon starting at  
4:30.

Dr. E. S. Archibald, Director of  
Dominion Experimental Farms, and a  
number of divisional officers from Ot-  
tawa, will be present. These men,  
with the station staff, will assist with  
the field day program, which follow-  
ing the conclusion of the afternoon,  
will be concluded with an inspection  
of livestock, poultry, horticulture and  
bees.

## ECHOES OF GLEICHEN TWENTY YEARS AGO

A Miller is the new manager of the  
Nanaka Farm.

Herrie and John Adler, of Bir-  
minston, Alta. are at the Nanaka  
Farm taking stock before turning the  
place over to George Lane.

Mr. and Mrs. King of Winnipeg are  
visiting her brothers and sisters in  
Gleichen, Miss. Beaupre, and Messrs.  
J. J. and Chas. Marshall.

The following directors were  
appointed for the proposed Farmers  
Elevator to be erected here: N. N.  
Hayes, W. D. Trepo, J. C. Buckley, N.  
W. McMillan and H. W. Lee. Messrs.  
N. N. Hayes, W. Trepo and J. C. Buck-  
ley were elected delegates to attend  
the meeting of the Central Board of  
the Alberta Farmers' Co-operative  
Elevator Co.

The recent heavy rains have put  
the crops in the district in fine shape.

John Hansen is here from Vonda,  
Sask., and has purchased a carload  
of horses from Jack Morton and will  
ship them east in a day or so.

At the council meeting the follow-  
ing motions were carried: A. L. Lar-  
in and Service: That the rate of 25  
cents be enforced for 1934 on land val-  
ues and 10 per cent on business as-  
sessment (real estate). The leg-  
islator and Larkin successfully carried  
that a rebate of 5 per cent be allowed  
on all taxes paid before September 1st,  
1933.

Gleichen and Blind Creek played  
baseball at the S. A. L. C's big cut  
when a score of 3-2 was made in Gle-  
ichen's favor before a crowd of about  
75 people. Blind Creek players: Henry  
Mack, Carson, Sproule, Brown, Watts,  
Crest, Baker and Britton. Gleichen:  
J. McArthur, Cairnes, Wade, B. Mc-  
Arthur, Gordon, Demerest, Moulton,  
Scott and Service.

W. J. (Eva) Stewart arrived from  
Coleman Sunday afternoon to spend a  
couple of days with his numerous  
Gleichen friends. "Eva" is as happy  
as ever and says that his lady friends  
tell him his good looks have not changed  
in the slightest.

Monday Magistrates Ostrander  
and Vigne imposed a fine of \$10 and  
\$14.50 costs upon Mervil Simmer,  
who was charged with stealing a horse  
from H. W. Lee. The charge was re-  
minded and Simmer was fined for re-  
moving a stray animal over five miles,  
the evidence proving he had no intention  
of stealing.

Chief Roberts succeeded in captu-  
ring a man that evaded many an  
officer, failed to do, and had him sent  
down for three months. The chief took  
the initiative and arrested on suspi-  
cion. Lamer, who was acting as boot-  
black in Howard's barber shop and  
chained him with stealing a rail-  
road. After being sentenced he con-  
fided that he had stolen many other  
things in other towns.

## McGill Convocation

Representative leaders of Canadian religious,  
educational and business life take part in the tra-  
ditionally impressive ceremonies connected with  
the Convocation of McGill University. Of particu-  
lar interest was the honorary degree of Doctor of  
Divinity conferred upon the Reverend Cardinal Vi-  
llevue. In the picture are shown from left to  
right, front row, in caps: Right Rev. John C.  
Parville, D.D., Anglican Bishop of Montreal; His  
Emminence Cardinal Villeneuve, Archbishop of Que-  
bec; A. J. Brown, K.C., Second row in mortar-  
board: Chancellor E. W. Beatty, K.C., LL.D., of  
McGill University, and President, Canadian Pacific  
Railway; Sir Arthur Currie, Principal of McGill  
University, and on his left in gown, Mr. John W.  
Ross. Rear row: W. A. Black, Hon. Vincent  
Massey and W. M. Birks. In the doorway is Mr.  
Stanley R. Drummond.

## Bow River Constituency U.F.A. Convention Friday

The Bow River Federal Constituency U.  
F. A. convention will be held at the Meadow-  
brook Hall next Friday, July 7th, commencing  
at 9 a.m.

Delegates are expected from all parts of  
the constituency. A special feature will be  
the large attendance from the Junior U. F. A.  
Locals, who will have charge of the evening  
program.

E. J. Garland, M. P., will be the principal  
speaker and many important problems will be  
dealt with.

## NEWS ITEMS OF GLEICHEN AND VICINITY

Ted Kraus has completed the  
erection of his new oil station opposite  
the United Church and is now doing  
business there.

The district Boy Scout camp at the  
North Camp on the Blackfoot Reserve  
held underway Monday morning.  
With the arrival of scouts from the  
nearby towns the streets were enlivened  
with the cars coming and going.  
Rev. J. House has charge of the  
camp.

Last Sunday afternoon the  
Calgary Herald football team played  
the Hotshots two games on the local  
diamond before a large crowd. Each  
team won a game. The game in  
which the Calgary boys walked off  
with the honors the victors made 11  
runs in one inning when the local  
boys blew up completely.

Mr. J. Wodel and family of Cal-  
gary spent Sunday in town the guests  
of Mrs. W. P. Evans.

For the past few weeks baseball  
has been a rather quiet issue as no  
summer has been played here. Here  
is hoping we will have the good for-  
tune to see a couple of games played  
before the season ends.

At the Standard sports last Satur-  
day the local baseball boys won first  
money in the ball game.

Automotive prophets are busy a-  
gain drawing cashes in the air. In  
the news breathes the 7 discuss both  
rolling stock and roadbed, advancing  
the claim that greatest car progress  
will come only when highway condi-  
tions show similar advancement. One  
scientist predicted cars weighing less  
than 1000 pounds travelling safely at  
160 and 150 miles an hour and  
covering 80 miles on a gallon of gas,  
or perhaps using atomic energy for

power. Roads over which these cars  
will be driven, says the prophet, will  
be self-illuminating, the composition  
of the road surface will enable it to  
absorb sunlight by day and release it  
by night, hushing highway fences  
and sign posts in a subdued glow.  
Along this golden path the cars them-  
selves will glimmer under coats of lu-  
minous material making headlights un-  
necessary.

While cranking his car one day last  
week Peter Kelly had the misfortune  
to have his leg badly hurt when the  
engine backfired. Mr. Kelly put his  
foot inside the bumper and started  
to crank the engine which back-  
fired and continued to run backwards  
for a few moments spinning the  
crank handle with it and at almost  
every revolution the crank hit his leg  
tearing off a large piece of skin and  
flesh covering an area of about six  
inches by four inches and stripped out  
a long piece of his bone, besides all  
this the muscles of the leg were badly  
torn. Dr. Farquharson was called to  
attend the injured man.

## THE PEDDLER PEST

During the past week or so peddlers  
have been going over the town and  
country side and for sheer nerve he  
beats anything we ever heard of.  
He knocks at the door during the  
housewife's busy hours, and using  
the doorway as his saleroom, sample  
room, and office launches out on a  
line of patter designed to inveigle  
his listener into buying whatever he  
has to sell.

The itinerant peddler is a nuisance,  
and our advice is, do not buy from  
him. He invades the privacy of the  
home, and tries to turn it into a  
sales room for his own personal gain.  
He knows that most people  
hate to be rude on their own door-  
step and close the door in his face,  
so he capitalizes this sentiment and  
tries to coax the unwilling listener  
to part with his hard money.

The goods the itinerant peddler

has for sale are usually of inferior  
quality. Probably he will never  
be in the town again, so what cares  
he if the customer finds out later  
that the goods he sold are not sat-  
isfactory and that he charged a high  
price for them?

The local merchant is a resident  
of the town, and is always ready  
to make adjustments on a sale with  
which the customer is not satisfied.  
The peddler may say his article is  
guaranteed, but he may be a thou-  
sands of miles away when the customer  
finds out it is not satisfactory.

The local merchant carries a fine  
stock of goods and offers a good  
range of stock for customers. If he  
has not what you want he will be  
glad to get it for you.

Don't buy from peddlers. The  
next time one appears at the door  
say sweetly but firmly, "No, thank  
you, we do not need a single thing,  
and besides we never buy anything  
at the door; this is a home, not a  
place of business."

Then gently close the door or turn  
your back on him before he gets a  
chance to say another word. You  
will find it surprisingly easy after  
the first time.

We notice that people in attending  
a public entertainment in a hall  
have no hesitancy in talking forth  
rightly, in fact, there is a general rush  
for them, and usually a higher price  
willingly paid for the privilege. We  
also notice in church the custom is  
right the reverse, everybody crowds  
in to the back seats and if there are  
any empty seats they are always be-  
tween the preacher and people, and  
the glad tidings of salvation lose half  
their charm in having to sound over  
empty seats to reach the audience.  
Why this position be the custom is not  
exactly clear to us, unless in the latter  
instance should be taken according  
to scripture, "The lowest place first  
in order to be invited higher."

## Town & District

Jack Moss who has been visiting his family for the past couple of weeks left for Vegreville where he takes charge of the Distributors Warehouse. Jack will likely be a busy man next winter promoting hockey in the northern town.

Quite a number of local people are preparing to attend the Calgary exhibition and stampede next week. Before the show is over no doubt most of the people here will have attended the fair.

Several carloads of Gleichen people spent last Thursday evening at Arrowwood listening to Leon Aber here lecture on the Doot. System of C. C. It. All state the many questions asked by the audience were answered quite satisfactorily. Mr. Aber will speak in Gleichen, the latter part of this month and no doubt the hall will be filled to capacity. Some of the Gleichen committee men state that as a very large audience is expected babies in arms and children under a certain age are not likely to be admitted. This point has not been definitely settled yet.

A number of Indians and white riders have been busy practicing bucking horse riding for the past several weeks in preparation for the Calgary Stampede. The practice tilts have taken place on the reserve and some "critters" have been seen ridden to a standstill. If these boys ride as well next week in Calgary some of the prize money should come this way.

Mr. and Mrs. J. A. Menard and Mr. and Mrs. G. W. Evans, who were to leave for B. C. Saturday morning for a short visit with Mr. and Mrs. W. Mooney, formerly of Gleichen. They returned Sunday evening accompanied by Mrs. Mooney, who will visit with Mrs. Menard for several weeks. People of Gleichen and district do not know what hard times are; at least they are able to get enough to eat and keep the inner man satisfied. Not so with hundreds of people in the Crow's Nest towns especially the eastern boundary of British Columbia.

N. T. Pirell returned last week from a visit to Nova Scotia, looking much better for the holiday.

With Chautauqua here July 1st, the people had plenty of entertainment. The holiday and those who had season tickets took advantage of the occasion. Those who did not care to attend Chautauqua found plenty of places to go to for business, Sunday and Strathmore put on a day of sports.

### THE SHORTEST

The shortest is a loose-tipped cog in a baseball team which is used for the purpose of preventing the pitcher from blowing up with a loud detonation in the seventh inning. His business is to talk to the pitcher in a convincing tone of voice and stop ground hits with any portion of his person which happens to get in the way. The best shortstops are those which have been equipped by nature with metal shins and a two per cent solution of gray matter. The old-fashioned six foot shortstop with a full complement of legs, which bowed out at an angle of 45 degrees, and could be folded up like a pocket ruler when not in use, has been a mere figurehead of a dream. The modern shortstop is a sleek, squat individual, with as much clearance as a setting hen, and can cover more ground than a street sprinkler. In addition to catching everything that comes his way from a leaguer to the tensilis, he is supposed to be able to throw a ball from a sitting posture without killing anybody in the bleachers. A short stop is said to "boot" the ball when he displays it under one of his feet and executes a neat pivot on its remains. After this has happened four or five times in one game the buster is generally fed home and treated for mental submission and the rubber. Some shortstops are able to throw from any point of the compass without any tring their anatomical symmetry, while others are obliged to set themselves in the exactitude of a man with a crick in his back and take careful aim at first base. Some persons would rather have their son take a course in the third organ and learn to play shortstop, but this is a mistake. A good shortstop, with spreading feet and unobtrusive table manners, lives a soft and luxurious life. When the season closes he takes a bath and hibernates at some fashionable place and has charge of vast every working hour of the day. He is not to be sneered at as a breadwinner.
